I loved the class and Professor Blanchard. He was very interesting to listen to as he is so knowledgeable about everything we covered.

Really enjoyed this course

the short assignments helped me learn the material in a more detailed manner especially doing it in a group helped learned other peoples perspectives. the papers helped me to put my understanding into detail.

Great content

I loved everything about this class.

I found this class to be very engaging when we were on campus at IWU. The professor made the discussions very debate centered and I found them to be thought provoking

Very good

Professor Blanchard has been one of my favorite professors at Wesleyan since I've been here. Loved the class and what it entitled as well.

Blanchard was super chill, and presented theories in a way that made me understand pretty well. Loved his analogies.

i love professor blanchard. he made this very interesting and made me want to learn more each time i go.

Pretty good instructor

I loved everything about this class.

The professor challenged me by asking me to provide more evidence on papers and really examine to full degree on what I was writing/talking about.

Thorough

I learned so much in this class and had a lot of fun while doing it as well.

I really learned a lot from this course and would highly recommend it.

this course made me think about how the universe actually came about and all the different views people have on this topic. it made me think about a lot of topics i have never thought to talk about.
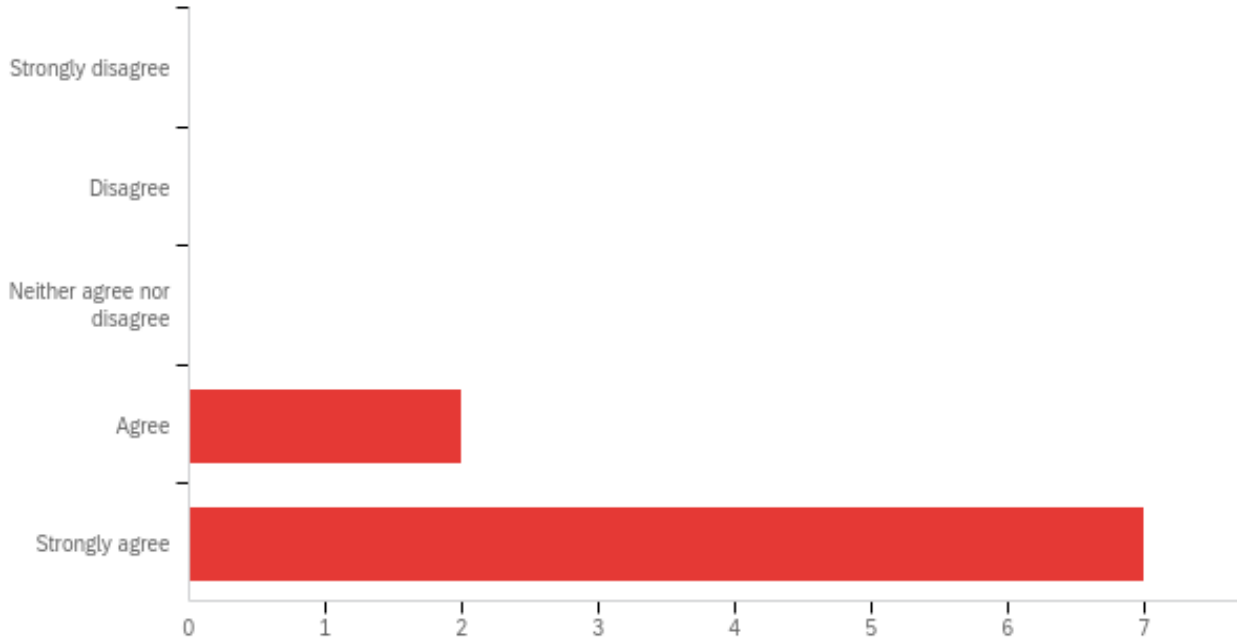

Learned a lot from this class

I loved everything about this class.

I was able to excel in this class due to the debate style of class. Being able to express my opinions and let them bounce off others really helped me learn better.

Very good
